EXTENDED CONFLICT MINERALS

To whom it may concern.

The new Extended Minerals Reporting model, issued by Responsible Minerals Initiative, targets Cobalt and Mica as minerals of interest even though there are no regulatory compliance requirements in place for those two materials at this time.

Green Power Solutions srl does not use Cobalt and Mica in its present manufacturing processes.

In case Cobalt or Mica will be used in our processes, we are committed to performing adequate due diligence with our Suppliers to assure responsible sourcing of such minerals.
